INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of the Elizabeth Fry Society of Greater Vancouver

Report on the Audit of Financial Statements

Opinion

We have audited the financial statements of The Elizabeth Fry Society of Greater Vancouver ("EFry"), which comprise:

- the statement of financial position as at March 31, 2025
- the statement of operations for the year then ended
- the statement of changes in net assets for the year then ended
- the statement of cash flows for the year then ended
- and notes and schedules to the financial statements, including a summary of significant accounting policies

(hereinafter referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of EFry as at March 31, 2025, and its results of operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the "***Auditor's Responsibilities for the Audit of the Financial Statements***" section of our auditor's report.

We are independent of EFry in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

KPMG LLP, an Ontario limited liability partnership and member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee. KPMG Canada provides services to KPMG LLP.

In preparing the financial statements, management is responsible for assessing EFry's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate EFry or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing EFry's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

  The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of EFry's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on EFry's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause EFry to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

As required by the Societies Act (British Columbia), we report that, in our opinion, the accounting policies applied in preparing and presenting the financial statements in accordance with Canadian accounting standards for not-for-profit organizations have been applied on a basis consistent with that of the preceding period.

	(1,275,292)	(2,143,465)
Financing:		
Increase in long-term debt	-	932,199
Repayment of long-term debt	(125,115)	(118,802)
Deferred capital contributions received (note 9)	276,897	3,139,119
	151,782	3,952,516
Increase (decrease) in cash	(284,310)	1,231,377
Cash, beginning of year	5,817,132	4,585,755
Cash, end of year	$ 5,532,822	$ 5,817,132

See accompanying notes to financial statements.

1. Operations:

The Elizabeth Fry Society of Greater Vancouver ("EFry") is incorporated under the laws of British Columbia, registered under the *Societies Act* (British Columbia), and carries out its work in the Lower Mainland and Greater Victoria. EFry is a registered charitable organization for income tax purposes and is exempt from the requirement to pay income taxes.

EFry's charitable purpose is to support criminalized and marginalized women, girls and children in achieving their potential. The Society develops strategic direction and provides leadership regarding humane criminal and social justice. Through the provision of a range of programs and services within the community, prisons, housing and public education, EFry works to improve population health factors which place women and youth at risk of involvement of poor outcomes.

EFry seeks to reduce the number of women, children and youth involved in the criminal justice system.

2. Significant accounting policies:

The financial statements have been prepared by management in accordance with Canadian Accounting Standards for Not-For-Profit Organizations in Part III of the CPA Canada Handbook. EFry's significant accounting policies are as follows:

(a) Revenue recognition:

EFry follows the deferral method of accounting for contributions.

Government contract revenues are recognized as revenue in the period in which the service is provided.

Donations and grants are recorded as revenue when received or receivable except when the donor has specified that they are intended for a specific purpose or use in a future period, in which case they are initially deferred and recognized as revenue when the expenses are incurred, or the restrictions are met. Unrestricted pledged funds are recorded as revenue as they are received.

Unrestricted contributions are recognized when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Contributions received specifically for the acquisition of capital assets are recorded as deferred capital contributions and are amortized to revenue on the same basis as the related capital assets are amortized, except where they relate to land, in which case they are recorded as direct increases in net assets.

Donated volunteer services are measured at the fair value of the services at the date of contribution and are recognized as both revenue and expenses in the financial statements. Due to the difficulty of determining the fair value of governance and non-program related donated services, such donated services are not recognized in the financial statements.

Rental income is recognized as revenue when the premises are occupied, which is typically at the beginning of each month.

2. Significant accounting policies (continued):

(b) Investment in subsidiary:

EFry accounts for its 100% owned subsidiary, A-GRL Business Corporation, a for-profit entity, using the equity method of accounting.

(c) Prepaid rent:

Prepaid rent represents financed rent payments and is amortized over the term of the lease.

(d) Capital assets:

Capital assets are recorded at cost less accumulated amortization. Amortization is provided on a straight-line basis over the estimated useful life as follows:

Asset	Rate
Buildings	25 years
Buildings under capital leases	40 years
Building improvements	15 years
Furniture and equipment	3 - 5 years
Leasehold improvements	25 years
Vehicles	3 years

Leases, which transfer substantially all of the benefits and risks incidental to ownership of property, are accounted for as leased capital assets. All other leases are accounted for as operating leases and the related payments are charged to expenses as incurred.

Buildings under capital leases are amortized over the lesser of the lease term and its estimated useful life.

The carrying amount of capital assets is reviewed for impairment whenever events or changes in circumstances indicate that the asset no longer contributes to EFry's ability to provide services, or that the value of future economic benefits or service potential associated with the asset is less than its carrying amount. If such conditions exist, an impairment loss is measured and recorded in the statement of operations at the amount by which the carrying amount of the net asset exceeds its fair value or replacement cost.

(e) Lease inducement:

Deferred lease inducements consist of incentive funds received from landlords. These inducements are amortized over the term of the lease, as a reduction of rent expense.

2. Significant accounting policies (continued):

(f) Financial instruments:

Financial instruments comprise cash, restricted cash and term deposits, receivables, investments, accounts payable and accrued liabilities, and debt. Financial instruments are recorded at fair value on initial recognition. Equity instruments that are quoted in an active market are subsequently measured at fair value. All other financial instruments are subsequently recorded at cost or amortized cost unless management has elected to carry the instruments at fair value. EFry has elected to carry its investments at fair value with changes in fair values recognized in the statement of operations in interest and investment income.

Transaction costs incurred on the acquisition of financial instruments measured subsequently at amortized cost are added to the initial amount recorded and subsequently amortized using the effective interest rate method.

Financial assets are assessed for impairment on an annual basis at the end of the fiscal year if there are indicators of impairment. If there is an indicator of impairment, EFry determines if there is significant adverse change in the expected amount or timing of future cash flows from the financial asset. If there is a significant adverse change in the expected cash flows, the carrying value of the financial asset is reduced to the highest of the present value of the expected cash flows, the amount that could be realized from selling the financial asset or the amount of EFry expects to realize by exercising its right to any collateral. If events and circumstances reverse in a future period, an impairment loss will be reversed to the extent of the improvement, not exceeding the initial carrying value.

(g) Measurement uncertainty:

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Areas requiring the use of management estimates relate to the valuation of accounts receivable, determination of useful lives of capital assets for the purpose of amortization of capital assets and deferred capital contributions. Actual results may ultimately differ from these estimates.

3. Line of credit:

EFry has available an operating line of credit with VanCity of $300,000 (2024 - $300,000), drawings on which bear interest at the bank's prime rate plus 0.50% per annum. The 402 East Columbia Street building, with carrying value as disclosed in note 6, is provided as security. No amount was drawn on this facility at March 31, 2025 and 2024.

4. Restricted cash and term deposit:

Restricted cash and term deposit are held for specific purposes and may be spent only in accordance with the requirements of the designated agency. Restricted amounts are comprised of the following:

		2025	2024
137th Street capital building funds (notes 8 and 17)		$ 519,255	$ 503,412
Burnaby development project (notes 8 and 18)		-	250,000
BC Gaming Policy and Enforcement Branch grant (note 8)	(a)	138,318	118,277
BC Housing Management Commission rent supplement		106,577	102,578
Sherbrooke Street capital building funds (note 8)		84,704	84,704
CMHC replacement reserve	(b)	39,846	38,358
CMHC replacement reserve - Rosewood apartments	(c)	29,971	14,926
		918,744	1,112,255
Less current portion		657,573	871,689
Long-term portion		$ 261,171	$ 240,566

(a) During the year, EFry received $125,000 (2024 - $114,000) from the BC Gaming Policy and Enforcement Branch that will be spent on qualified specialized projects for the next fiscal year and hence has been classified as current.

(b) Funds were required to be set aside under a mortgage agreement with the Canada Mortgage and Housing Corporation (“CMHC”).

(c) Funds were required to be set aside under the contribution agreement with CMHC for the 137th first floor capital contribution (note 17).

5. Investments:

(a) Short term investments are one-year cashable and non-redeemable guaranteed investment certificates with maturity date of August 30, 2025 bearing interest rates ranging 4.05% to 4.65%.

(b) EFry’s investments held at fair value consist of North Growth pooled equity funds. An unrealized gain of $8,277 (2024 - $45,642) in fair valuing the investments has been included in investment income in the statement of operations.

6. Capital assets:

2025		Cost	Accumulated amortization	Net book value
Land	(a)	$ 3,816,264	$ -	$ 3,816,264
Buildings:				
Surrey property - Ellendale	(a)	428,186	239,784	188,402

Buildings under capital leases:				
Chilliwack	(b)	458,928	194,085	264,843
137th Street Building Apartments	(c)	11,480,429	450,067	11,030,362
137th Street First Floor	(d)	2,886,330	114,251	2,772,079
Leasehold improvements		272,639	97,687	174,952
Furniture and equipment		698,051	422,351	275,700
Vehicles		595,667	306,115	289,552
		$ 43,202,340	$ 7,019,355	$ 36,182,985

6. Capital assets (continued):

(a) During fiscal 2013, EFry received contributions toward the purchase of the Sherbrooke and Ellendale properties.

Donation contributions of $450,000 towards the Sherbrooke property were recognized as direct increases in net assets invested in capital assets as the capitalized cost of the property was attributable to land. Of the total contributions, $100,000 represented a reduction in the fair value consideration paid by EFry to the vendor of the property.

Contributions of $679,347 by British Columbia Housing Management Commission ("BC Housing") in the form of forgivable loan towards the Ellendale property were allocated according to the fair values attributable to building and land on acquisition (note 9(b)). $206,397 was attributable to building, and $472,950 was attributable to land and was recognized as a direct increase in net assets invested in capital assets.

(b) In fiscal year 2008, EFry entered into a 40-year prepaid lease agreement for land and building in Chilliwack. This lease agreement was financed by a mortgage for $456,100 and a forgivable loan for $500,000 (note 8). The land portion of this lease is an operating lease and the building portion is a capital lease. Prepaid rent represents rent payments paid in advance for the lease of this land and the current portion being the amortization of the prepayment in the next fiscal year.

(c) In fiscal year 2023, EFry entered into a 60-year capital lease agreement for the 34 apartment units at the 137th Street building. Capital contributions were received from various federal and provincial funders (note 17).

(d) In fiscal year 2023, EFry entered into a 60-year capital lease agreement for the first floor programming space at the 137th Street building. Capital contributions were received from federal funders and private donors (note 17).

(e) EFry received contributions from the City of Burnaby for the construction of the building (note 18).

7. Accounts payable and accrued liabilities:

Included in accounts payable and accrued liabilities are government remittances payable of $179,145 (2024 - $177,226), which include amounts payable to Municipal Pension Plan, WorkSafe BC, and payroll related taxes.

8. Deferred contributions:

	2025	2024
B.C. Gaming Policy and Enforcement Branch grant (note 4)	$ 138,318	$ 118,277
Deferred program income and funds	4,609,700	3,356,350
BC Housing forgivable loan (note a)	276,042	288,542
Sherbrooke Street capital building funds (note 4)	84,704	84,704
Burnaby development project (notes 4 and 18)	-	250,000
137th Street capital building funds (notes 4 and 17)	519,255	503,412
	5,628,019	4,601,285
Less current portion	5,273,677	4,234,443
Long-term portion	$ 354,342	$ 366,842

(a) In fiscal 2008, EFry entered into a forgivable loan agreement for $500,000 relating to the lease of the Chilliwack land and building. This loan is forgivable starting on the 11th year at a rate of $20,000 per year through to the end of the 35-year term. Under this agreement, EFry must meet certain conditions for the duration of the 35-year term. Management has determined that it is likely that these conditions will be met for the duration of the 35-year term and hence has recorded the entire loan amount as deferred contribution. As this loan is related to the Chilliwack lease, it is being amortized into revenue over the lease term of 40-years. As at March 31, 2025, $140,000 (2024 - $120,000) of the loans have been forgiven with $360,000 (2024 - $380,000) outstanding subject to repayment plus interest if the conditions are not met for the remaining term of the loan.

9. Deferred capital contributions:

The Society receives grants and contributions towards certain housing projects and other capital assets. These amounts, once spent for which the funds are provided for, are deferred and amortized over the estimated useful lives of the related capital assets.

	137th Street Apartments (note 17)	137th Street First Floor (note 17)	Burnaby Newcombe Building (note 18)	Others	Total 2025	Total 2024
Balance, beginning of year	$ 10,169,270	$ 2,773,132	$ 16,441,432	$ 1,216,354	$ 30,600,188	$ 28,163,038
Amounts received	-	-	227,893	49,004	276,897	3,139,119
Amounts amortized to revenue	(266,549)	(67,099)	(444,554)	(169,288)	(947,490)	(701,969)
Balance, end of year	$ 9,902,721	$ 2,706,033	$ 16,224,771	$ 1,096,070	$ 29,929,595	$ 30,600,188

9. Deferred capital contributions (continued):

(a) During fiscal 2009, EFry entered into a forgivable loan agreement for $549,960 relating to the renovations of the 4th Floor, Liz Gurney House, 402 East Columbia building. This loan is forgivable over 10-years starting on the 5th year at a rate of $54,996 per year. Under this agreement, EFry must meet certain conditions for a 15-year period.

These conditions include provision of a minimum of 12-emergency shelter beds at this premise. If the conditions are not met, EFry would be liable to pay the $549,960 loan plus interest. EFry expects to meet this condition over the 15-year period and has therefore included the amount in deferred capital contributions and is being amortized over 25-years. As at March 31, 2024, the loan had been fully forgiven.

(b) During fiscal 2013, EFry entered into a forgivable loan agreement for $679,347 relating to the purchase of 1187 Ellendale Drive, Surrey (the “Ellendale property”). This loan is forgivable over 30-years commencing in the 11th year. Under this Agreement, EFry must continue its development of a minimum of 10-housing units for women at risk of homelessness. If the condition is not met, EFry would be liable to pay the $679,347 loan plus interest at prime plus 2% per annum. EFry expects to meet this condition and has therefore included $206,397, the amount allocated as contribution towards the purchase of the building in deferred capital contributions and is being amortized over 25-years, which approximates the useful life of the building. The remaining portion of the forgivable loan of $472,950, allocated as contribution towards the purchase of the land, was recognized as a direct increase in net assets (note 6(a)). As at March 31, 2025, $87,749 of the loan has been forgiven with $591,598 outstanding subject to repayment plus interest if the conditions are not met for the remaining term of the loan.

(c) During fiscal year 2024, EFry entered into a forgivable loan agreement for $4,357,571 relating to the capital lease of the 137th Street Apartments. This loan is forgivable over 25-years commencing in the 11th year. Under this Agreement, EFry must continue to use the property for the specific purpose during the term of the loan. If the condition is not met, EFry would be liable to pay the loan balance plus interest at prime plus 2% per annum until the loan is fully paid. EFry expects to meet this condition and has therefore included the amount in deferred capital contributions and is being amortized over 40-years, which approximates the useful life of the building.

10. Long-term debt:

	2025	2024
Surrey Property - Duplex:		
6.84% mortgage with Vancity, repayable in monthly installments of $1,953, including principal and interest, maturing on April 25, 2028	$ 63,590	$ 81,925
Ellendale Property:		
4.193% mortgage with Scotiabank repayable in monthly installments of $2,021, including principal and interest, maturing on October 1, 2032	302,161	313,593
Rosedale Property:		
4.783% mortgage with Canada Life, repayable in monthly installments of $2,226, including principal and interest, maturing on April 1, 2027	312,319	323,939
Firth Property:		
5.14% mortgage with Scotiabank (previously Peoples Trust), repayable in monthly installment of $9,661 including principal and interest, maturing on November 1, 2033	1,395,641	1,439,385
137th Street Apartments property:		
3.57% mortgage with Scotiabank, repayable in monthly installments of $3,924 including principal and interest, maturing on May 1, 2033 (note 17)	917,911	932,199
New Westminster Property - 402 East Columbia:		
2.85% mortgage with Vancity, repayable in monthly installments of $2,932 including principal and interest, maturing on October 1, 2035	321,312	347,008
	3,312,934	3,438,049
Less current portion	130,977	125,050
Long-term portion	$ 3,181,957	$ 3,312,999

Security for the mortgages payable is by way of a charge against EFry's land and buildings with carrying values as disclosed in note 6.

Principal payments on the mortgages required for the five fiscal periods subsequent to March 31, 2025, assuming renewal on similar terms and conditions, are as follows:

2026	$ 130,977
2027	137,152
2028	143,499
2029	126,396
2030	131,621
Thereafter	2,643,289
	$ 3,312,934

11. Equity (deficiency) in equity-accounted organization:

In 2011, EFry incorporated a wholly-owned subsidiary, A-GRL Business Corporation ("AGRL"). AGRL is a for-profit organization providing human services, and green services (reducing the environmental impact of other businesses). It provides work for women. It was founded to particularly support under employed, and criminalized women enabling them to advance their lives.

The following is a summary of the financial position, results of operations and cash flow activities of AGRL as at and for the year ended March 31, 2025:

	2025	2024
Assets	$ 50,855	$ 35,371
Liabilities	15,489	20,592
Shareholder's equity	35,366	18,296
Results from operations:		
Revenue	$ 99,793	$ 116,544
Expenses	82,723	106,326
Net income	$ 17,070	$ 10,218
Cash from operating activities	$ 17,070	$ 10,218
Cash from financing activities	-	-
Cash from investing activities	-	-

As at March 31, 2025, included in accounts receivable is $6,800 (2024 - $6,800) relating to expenses paid on behalf of and advances made to AGRL and $15,011 (2024 - $11,873) in accounts payable owed to AGRL.

12. Net assets invested in capital assets:

(a) Net assets invested in capital assets are comprised of the following:

	2025	2024
Capital assets	$ 35,484,026	$ 36,182,985
Amounts financed by long-term debt	(2,991,623)	(3,091,041)
Amounts financed by deferred capital contributions	(29,929,595)	(30,600,188)
	$ 2,562,808	$ 2,491,756

12. Net assets invested in capital assets (continued):

(b) Change in net assets invested in capital assets is comprised of the following:

	2025	2024
Deficiency of revenue over expenses:		
Amortization of deferred capital contributions	$ 947,490	$ 701,969
Amortization of capital assets	(920,087)	(860,904)
	$ 27,403	$ (158,935)
Net change in invested in capital assets:		
Purchase of capital assets	$ 221,128	$ 3,139,919
Amount funded by deferred capital contributions (note 9)	(276,897)	(3,139,119)
Decrease (increase) of long-term debt	99,418	(838,334)
	$ 43,649	$ (837,534)

13. Internally restricted net assets:

In fiscal 2009, the Board of Directors (the "Board") of EFry passed a motion to establish an internally restricted contingency fund to be used for any future unexpected or unbudgeted operating or capital expenditures of EFry's programs. No transfers were made into the fund during fiscals 2025 or 2024.

14. Donated volunteer services:

Donated program related services are recognized as revenue at the fair value of volunteer services provided, determined based on similar services that would otherwise have been purchased. Details of volunteer services recognized during the year are as follows:

	2025	2024
Total number of registered volunteers	177	192
Total hours contributed to program services	9,858	10,002
Total value of donated program services	$ 209,714	$ 216,336

Included in the hours above are 163 hours (2024 - 126 hours) of governance and non-program donated services received; however, due to the difficulty of determining the fair value of these services, no amounts are recorded in the financial statements.

15. Vancouver Foundation endowment fund:

EFry has contributed to a permanent endowment fund with the Vancouver Foundation known as The Elizabeth Fry Society of Greater Vancouver Endowment Fund. The fund is owned and administered by the Vancouver Foundation and, accordingly, as the capital of the fund is not available for use by EFry, the fund balance is not included in EFry's statement of financial position. All income from the fund, which has been disbursed at least annually, is for the benefit of EFry.

During the fiscal year March 31, 2025, EFry recapitalized $17,290 (2024 - $15,676) of interest paid back into the endowment fund. EFry has made total contributions of $104,284 in prior years which has been matched by contributions from the Vancouver Foundation of $75,000 in addition to other capital gifts for a total cost capital balance of $240,365 (2024 - $223,075) and fair value of $383,020 (2024 - $355,377) as at March 31, 2025.

16. Employee Pension Plan:

EFry and its employees contribute to the Municipal Pension Plan (the "Plan"), a jointly trusteed pension plan. The Board of Trustees, representing plan members and employers, is responsible for administering the Plan, including the investment of the assets and administration of benefits. The Plan is a multi-employer defined benefit pension plan. Basic pension benefits provided are based on a formula. The Plan has approximately 256,300 active members and approximately 128,900 retired members. Active members include approximately 129 (2024 - 127) employees of EFry.

Every three years, an actuarial valuation is performed to assess the financial position of the Plan and the adequacy of Plan funding. The actuary determines an appropriate combined employer and member contribution rate to fund the plan. The actuary's calculated contribution rate is based on the entry age normal cost method, which produces the long-term rate of member and employer contributions sufficient to provide benefits for average future entrants to the plan. This rate may be adjusted for the amortization of any actuarial funding surplus and will be adjusted for the amortization of any unfunded actuarial liability.

The most recent valuation for the Plan as at December 31, 2021, indicated a $3.761 billion funding surplus for basic pension benefits on a going concern basis. The next required valuation will be as at December 31, 2024, with results available in later 2025.

Employers participating in the Plan record their pension expense as the amount of employer contributions made during the fiscal year (defined contribution pension plan accounting). This is because the Plan records accrued liabilities and accrued assets for the Plan in aggregate, resulting in no consistent and reliable basis for allocating the obligation, assets and cost to the individual employers participating in the Plan.

EFry paid $743,286 (2024 - $722,052) for employer contributions to the Plan in fiscal 2025.

17. 137th Street Project:

EFry was involved in the development of a mixed-use property on 137th Street in Surrey, British Columbia (the "Project"). EFry acted as the Project Manager under a Project Management Agreement ("PMA") with Provincial Rental Housing Corporation ("PRHC"), a provincial Crown Corporation under the auspice of BC Housing. Under the PMA, EFry was responsible for the design, budget administration, construction, and contracting of third-party services required for the Project development and construction. The Project was built on land owned by the City of Surrey, and leased to PRHC for 60-years.

The overall funding for the Project is through a combination of Municipal, Provincial, Federal funds, private donations, and commercial mortgage (note 10).

In fiscal 2023, the Project was completed, and EFry contracted with PRHC to operate and manage the building for 10-years. EFry also entered into capital lease agreements for 34 housing units and the first floor of the building. The housing units are rented out to tenants while the first-floor is used as programming space.

The capital lease agreements substantially transfer all of the economic benefit expected to be derived from the use of the leased property over its life span, hence the cost of the 34 housing units and the first-floor programming space meet the definition of an asset and have been capitalized (note 6).

The apartments and the first-floor programming space were funded by capital contributions from various sources, including forgivable mortgage from CMHC (note 9(c)), and have been included in deferred capital contributions. These contributions are amortized at the same rate as the related assets. See notes 6(c) and 6(d).

Included in deferred contributions and restricted cash is $519,255 (2024 - $503,412) related to unused private donor contributions.

18. Burnaby Newcombe Building:

The Burnaby building is a 49-unit housing project ("Project") that commenced in fiscal year 2021. The Project is built on land owned by the City of Burnaby and upon completion of the construction, EFry will own and manage the building and its operations. The Project was completed in September 2023. The total cost of the Project was approximately $16.9 million (note 6) and it was funded through the City of Burnaby.

The asset and corresponding deferred capital contributions received towards the Project (note 9) are amortized at a similar rate.

19. Commitments and contingencies:

EFry leases office space and equipment requiring annual payments as follows:

2026	$ 610,099
2027	519,756
2028	385,958
2029	118,007
2030	99,822
2031 and thereafter	82,217
Total	$ 1,815,859

EFry is required to meet certain conditions under forgivable loan agreements (notes 8 and 9).

20. Government funding and economic dependence:

EFry's ongoing operations is economically dependent on the renewal of annual funding agreements with various government agencies. Provincial and federal government funding represent approximately 83% (2024 - 86%) of total revenues.

21. Employee, contractor and director remuneration:

For the fiscal year ended March 31, 2025, EFry paid total remuneration of $3,544,721 (2024 - $2,790,791) to 35 (2024 - 27) employees and contractors for services, each of whom received total annual remuneration of $75,000 or greater.

EFry did not pay remuneration to any members of its Board of Directors.

22. Financial risks and concentration of credit risk:

(a) Credit risk:

Credit risk is the risk that a third party to a financial instrument might fail to meet its obligations under the terms of the financial instrument. EFry is not exposed to significant credit risk as the amounts receivable are primarily from government, and not subject to any significant concentration of credit risk. Assessment for uncollectible accounts are performed by management and provided for. Cash, term deposit and investment assets are held with large reputable financial institutions where credit risk is considered low.

(b) Liquidity risk:

Liquidity risk is the risk that an entity will not be able to meet its obligations associated with financial liabilities. EFry is exposed to this risk mainly in respect of its long-term debt. EFry manages liquidity risk by maintaining adequate cash, highly liquid investments, and available credit facilities with its banking provider.

22. Financial risks and concentration of credit risk (continued):

(c) Market risk:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. EFry has investments in pooled funds which are subject to risks arising to changes in market conditions.

(d) Interest rate risk:

Fixed interest rate instruments are subject to fair value risk while floating rate instruments are subject to cashflow risk. EFry's long-term debt (note 10) bearing fixed interest rates are subject to fair value risk.

There have been no significant changes to the above risk exposures from 2024 except the additional risk related to assessing the impact of tariffs which management has determined to be not significant as at March 31. 2025.
